Dr. J. Lederberg
Department of Genetics
Stanford University
Stanford, California

Dear Dr. Lederberg:

Late in August we shall publish Gunther Stent's distinguished new textbook: MOLECULAR BIOLOGY OF BACTERIAL VIRUSES. With the thought that you may wish to consider using the book with your students this fall, we send you the enclosed copies of the Preface and Table of Contents. A complimentary copy of the book will, of course, be sent to you immediately upon publication.

We are proud to be the publisher of this new book which is a superbly written and organized account of one of the exciting phases of modern biology, and we hope you and your students will be as enthusiastic about it as we are.

Yours sincerely,

William Kaufmann

Enclosures

P.S. I moved here from the east coast last summer. I visit Stanford quite often, and I hope I may see you on one of my calls there. WK
